

HONR 250: Human Sexuality

Class Project on Sexuality Education and Awareness

Human sexuality is an area of research and study focusing on all aspects of humans as sexual beings. Sexuality is an integral part of every individual's self-identity, and it is not only about sexual intercourse. Issues in sexuality are constantly changing, and it's important to be aware, to communicate openly and honestly, and to have as much information as possible in order to make informed decisions about sexuality that agree with personal sexual philosophies, beliefs, and values.
